

TO WHOM IT MAY CONCERN

November 2, 2006

Dear Sirs,

Marriott International, Inc. Architecture & Construction department has worked on 2 major hotels in Kazakhstan with LCA-CEVRIM Co. Ltd, in particular with Mr. Osman ARI as the Principal Mechanical Contractor of Capital Partners.

The two projects are:

1. Renaissance Hotel in Aktau...Now complete.
2. Renaissance Hotel in Atyrau....Now complete

As a Project Management Group we liaised with Cevrim on:

1. Design review
2. Site progress, in terms of the quality of the installation.
3. The compliance of all works to meet both international codes and specific brand standards
4. Commissioning and testing of live systems

In our involvement with Cevrim we have found the Company and individuals within that Company open for discussion, willing to accept both criticisms and acknowledgement of work well done. We have found them both diligent and genuinely interested in the projects that they have been awarded in competitive tender.

We have continued our working relationship with Cevrim and are presently working together on two further projects:

1. JW Marriott Hotel complex in Almaty...Under Construction
2. Marriott Executive Apartments in Atyrau...Under Construction

We have no hesitation in recommending Cevrim for major international MEP projects in the future and their inclusion on future tender lists.

Faithfully,  
Marriott International, Inc.
